IARU becomes custodian of operating standards booklet

May 12, 2016

Over the last eight years, the booklet "Ethics and Operating Procedures for the Radio Amateur" has become a respected work describing the best standards of operating on the amateur bands. Translated into most major languages, the booklet by John Devoldere, ON4UN and Mark Demeuleneere, ON4WW, is a valuable reference work for all radio amateurs.

The booklet can be found at <http://www.hamradio-operating-ethics.org/>

Mark and John recently contacted IARU, explaining that they felt it appropriate for IARU to become the custodian of the booklet into the future, with the scope to adapt and update it to ensure it remains relevant and current.

The IARU Administrative Council accepted this offer with gratitude to John and Mark for the work they have put into the document. On May 5th 2016, Mark and John met Don Beattie, G3BJ, President IARU Region 1, in Brussels to officially hand over the document. IARU will now carry forward the work in future years to ensure its continuing relevance and currency.

Any additional information can be obtained from the International Amateur Radio Union, PO Box 310905, Newington, CT 06131-0905 USA Phone +1 860 594 0200, Fax +1 860 594 0259.

QSO PARTIES

State QSO Parties are easy contests that welcome newcomers and hotshot contesters alike. They last anywhere from 12 to 48 hours, always on weekends. The object is to work amateurs in one state on SSB, CW and, in some contests, using digital modes. Two of them cover entire regions — the first and seventh call districts. QSO parties will be held in 48 or 49 states plus two Canadian provinces. Don't worry if you've never tried a QSO party before. Most participants will be happy to walk you through the on-air exchange.
