## HAZEL PARK AMATEUR RADIO CLUB

### NEW BULLETIN EDITOR

Effected in July our new bulletin editor will be Jack Field WA8UPU. Good Luck

### ARRL Field Day

I am still looking for some more people to operate on Field Day. We will be using the call KI8V, due to the trustee having only General Class bands. We will so far be having four transmitters operating June 27 and 28th. Set up time will be at 2 P.M. Saturday and we will be there until 2 P.M. on Sunday.

On Saturday we've decided on hot dogs, pop, and watermelon. On Sunday we will have a pancake breakfast with sausage links and coffee. There is also a possibility we will have some chili or sloppy joes on Sunday. We are still planning our menu....any ideas????? If you should want anything else there are fast food places and restaurants not far from the field day site or you can bring along your own food and drink

The novice class and visitors are again welcome to come out to the club field day and participate. I will have restrictions though on the band area we will operate in to keep away from nets and DX since third party traffic is not allowed to certain countries. This should prevent also interference with the stations not participating in Field Day in the ham bands, along with keeping us in the ham bands. Every station will have the band area posted and if there are any questions I will be there to answer them.

The Field Day Site is located North of 12 Mile on Mound at the GM Tech Center (Same location as last year).

Tnx & 73
